

Pentacoder's
DEIlitics

EXPLORE NOW

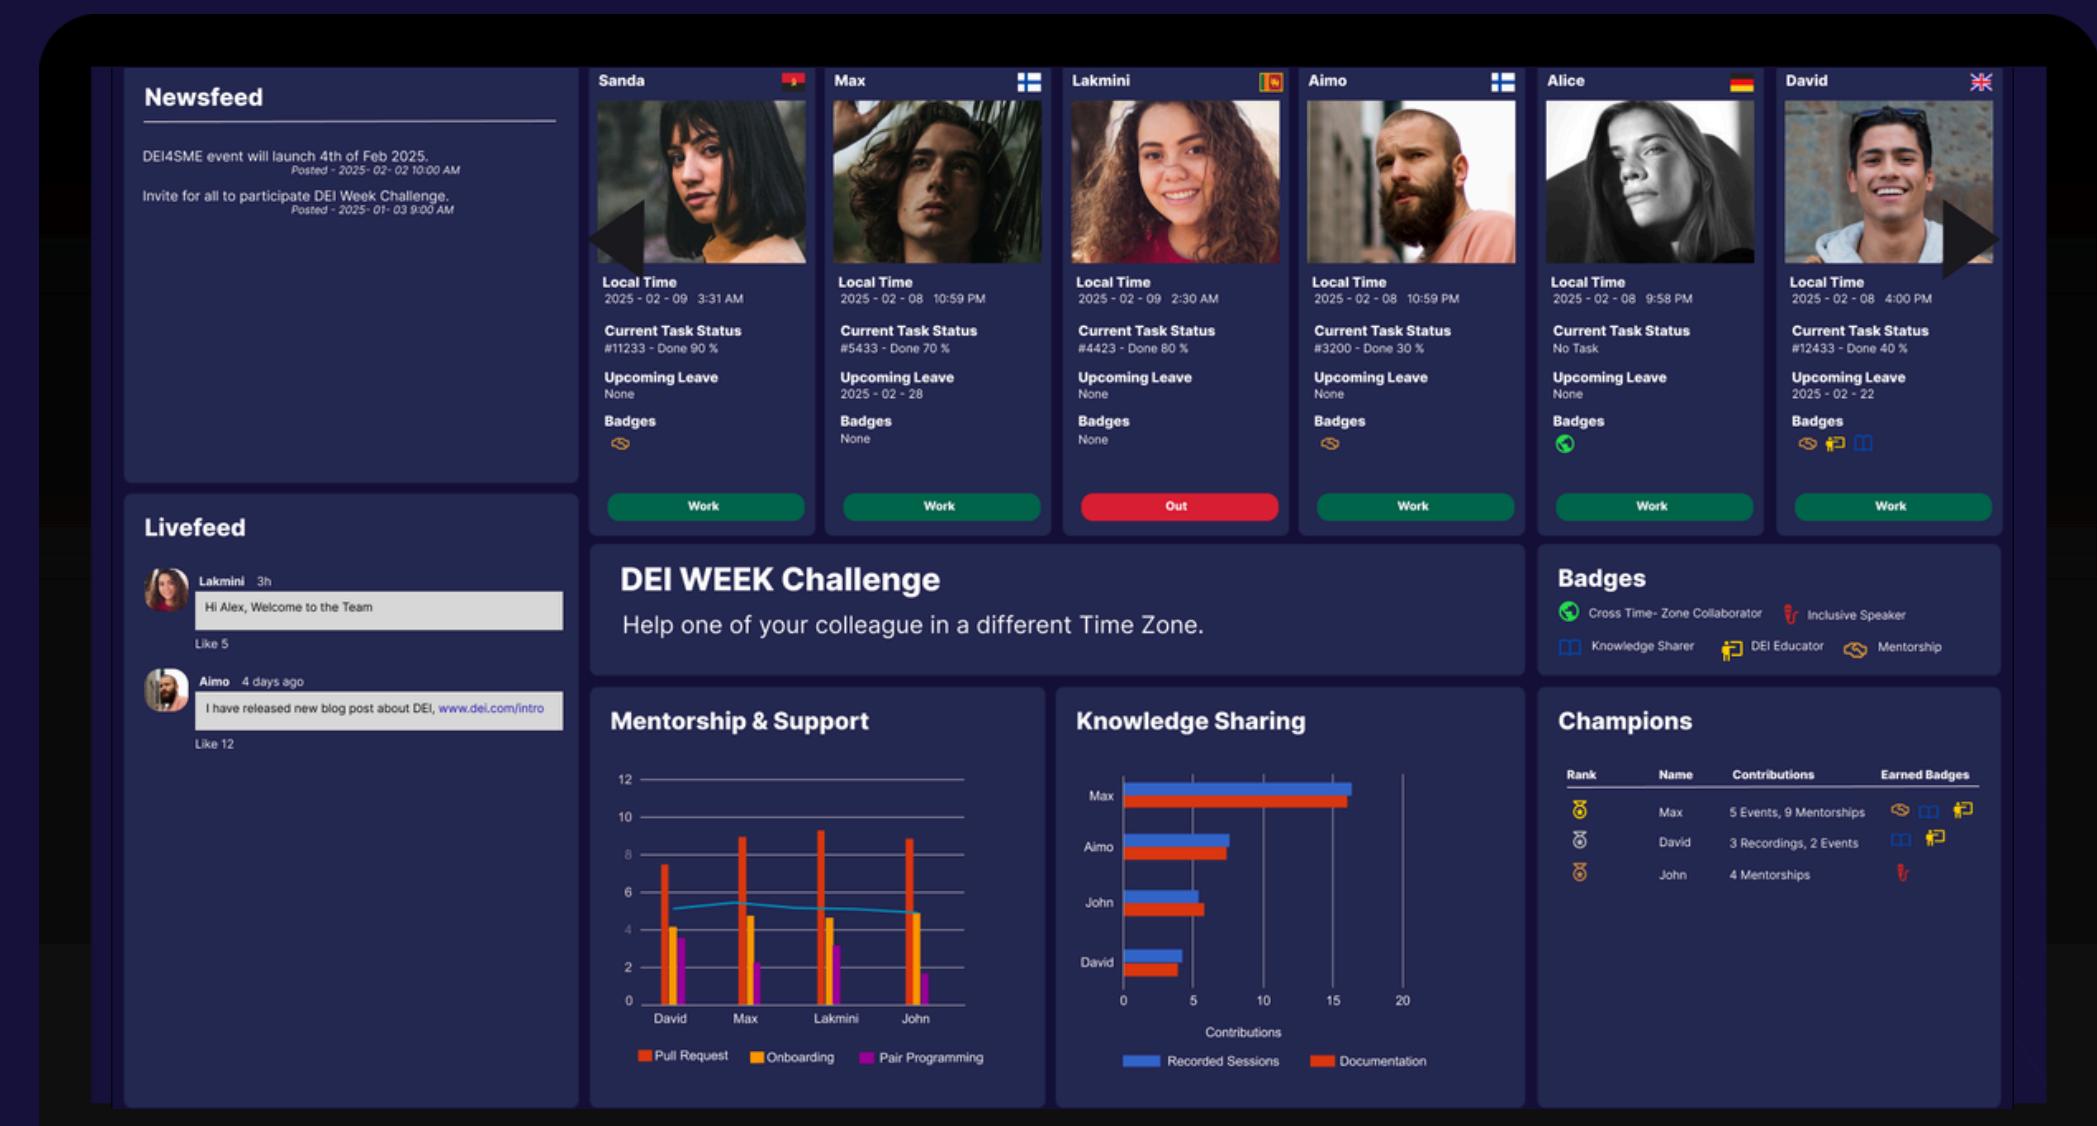

ABOUT DEI_litics

- DEI_litics is a cloud based software solution.
- Promotes DEI practices in your workplace.
- Consists Live Team board, Chat Bot and CMS.
- Makes a virtual space to collaborate your remote team members.

The screenshot displays the DEI_litics software interface. On the left, a vertical navigation bar lists various modules: Dashboard, Live, User (selected), Bot, Resources, Reporting, Audit, and Settings. The main area shows a "Users" list with one item: David Warner, email david.w@hotmail.com, address 234, Brooklyn Hill, Vaasa. Below this is an "Add New User" form. The form includes tabs for General, Resources, Knowledge Sharing, Comments, Achievements, and Email History. The General tab is active, showing fields for First Name (David), Last Name (Warner), Address (234, Brooklyn Hill, Vaasa), City (Vaasa), State (VA), Zip (65100), Telephone ((040) 123-2111), and Mobile ((040) 324-2555). To the right of the form is a login modal titled "DEI_litics". The modal has fields for "Email*" (name@example.com) and "Password*", a "Login" button, and links for "Forgot your password? Get a New One!" and "Contact us? Click here". At the bottom, it says "Copyright © 2025 DEI_litics. All rights reserved" and "Best view with Google Chrome, Mozilla Firefox, Edge, Opera".

TEAM BOARD

- Teamboard is a live dashboard.
- All team members display in the teamboard.
- Use as a digital signage solution in office premises.
- Perceive your remote environment at a glance.

Demographic visualization of all team members.

DEI Benefit: Encourages respect for global team members' work-life balance.

Inform all company news
for team members.

Members can share thoughts
with other members

Motivate team members
for DEI practices.
